Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This communication is responsive to the RESPONSE TO ELECTION REQUIREMENT filed May 17, 2005.

Election/Restrictions

Claims 1-9 and 12-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions/species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 17, 2005.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an applications filed in Japan on 2002/2003. It is noted, however, that applicant has not filed a certified copy of the Japanese application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 recites the limitation "a predetermined temperature condition". It is unclear if this condition is the one recited in 4-6 of claim 1.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Hatch et al. ('423).

Hatch et al. discloses a manufacturing method of a friction material comprising the steps of making a resin (Col. 3, lines 24-30), drying the friction material (Col. 3, lines 53-59), drying at a lower temperature at an inner surface (due to convective heat transfer), rotating the friction material (Col. 3, lines 33-41).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Novak ('602) and Stroehla et al. ('569), disclose other methods of making friction discs.

Sudani et al. ('564) discloses a method of making friction discs comprising a heating step with temperature differential.

Okamura et al. ('276) disclose a method of making a friction disc comprising a heating step belonging to the assignee of the instant application.

Suzuki et al. ('314) Okamura et al. ('276) disclose a method of making a friction disc comprising a heating step.

Somers ('457) discloses a method of processing a disc having heating and rotating steps.
